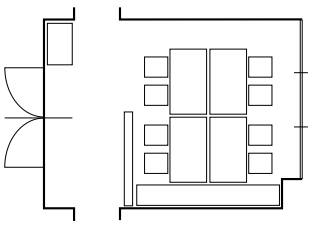
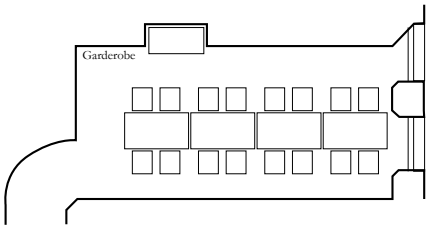
Our premises for groups

We are serving typical Viennese dishes in three comfortable rooms

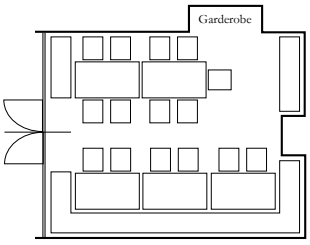
Wine arbour. 8 - 10 people. Because of the wall paintings and vine branches you feel the whole year like in a vineyard or in our garden. In the summer months the opened glass doors to our guest garden support this feeling.



Cabinet. 12 - 16 people. This room creates an impression of an old knight´s room because of its restored panelling and its lighting. There you can also find our oldest memento: a brick from the first century.



Extra room. 18 - 24 people. There you can sit in an easy-going atmosphere between the solidly constructed panelling and our of broad collection of handcarved plugs of wine bottles.



From April to November we also welcome you in our guest garden in front of the restaurant! Groups from 8 to 16 people can be served there.
